How do I get help in designing my course?

CLT's instructional designers offer expert consultation and course development services for faculty and instructors. Our IDs can collaborate on the design, development, implementation, and evaluation of course(s), whether offered face-to-face or online (inc. web conferencing courses).

**CLT's instructional design services include:**

- course and program design and development
- instructional materials design and development
- needs assessments
- class observations and evaluations
- technology integration in teaching
- promoting interaction
- testing and assessment support (inc. proctored exams)
- workshops and training on technology and pedagogy

**Contact CLT:**

To request a consultation or instructional design service, please contact CLT.
