Can I use my PLE site with face-to-face sections?
Yes, you or another faculty can use your PLE site for face-to-face classes.

Please email Dan Greenwood at CLT with the CRNs for the course currently using PLE and the CRNs for the other courses that will use the same PLE.

CLT will set up access for your students and email you instructions on how to add the PLE link to your Blackboard course menu. Also, we will provide suggestions about PLE to share with your face-to-face students.

- How is PLE different from Blackboard?
